

Colorado Consumer
Health Initiative

2025

**LEGISLATIVE
SCORECARD**

2025 LEGISLATIVE OVERVIEW

ABOUT US

The Colorado Consumer Health Initiative (CCHI) is a nonprofit, consumer-oriented, membership-based health advocacy organization that serves Coloradans whose access to health care and financial security are compromised by structural barriers, affordability, poor benefits, or unfair business practices of the health care industry.

MISSION

CCHI advances the consumer voice to improve access to health care for all Coloradans by working statewide for progress toward equity, affordability and quality.

VISION

All Coloradans have equitable access to affordable, high-quality health care.

Colorado's \$1.2 billion budget deficit was the leading issue throughout the 2025 Colorado Legislative Session. The enormous shortfall necessitated across the board cuts and difficult decisions for Joint Budget Committee members. Early in the session, legislators were looking at potential cuts to Medicaid, Child Health Plan Plus, and Cover All Coloradans as well as schools, transportation, and other sectors. Minimal funding was allocated for new bills meaning that any fiscal note likely doomed a bill to fail from the start.

In addition to budget concerns, the session was marred by great uncertainty and threats of health coverage rollbacks on the federal level. Talks of Medicaid cuts, elimination of important health coverage protections, and attacks on reproductive and gender-affirming care are ongoing and deeply concerning. Federal changes also contributed to long term concerns about Colorado's state budget and the potential for changes in federal dollars.

In light of these dynamics, CCHI chose to prioritize defense work over seeking to expand and improve existing health programs for Coloradans. As an organization, we testified 24 times, prioritized supporting the work of our partners, and renewed our focus on federal level regulation and advocacy. While public coverage programs remained largely protected during the 2025 state legislative session, many questions remain unanswered on both the federal level and concerning the ongoing sustainability of Colorado's state budget. CCHI is committed to continued federal advocacy and ongoing collaboration with stakeholders to find equitable and sustainable funding streams for our essential state health programs.

CCHI took positions on 37 bills this session ranging across health care issues, from ambulance billing to preventative services to addressing the role of consolidation in the health care sector. Several bills were aimed at increasing protections in the upstream determinants to health, specifically immigration, food security, and funding streams. When evaluating bills, CCHI used an equity assessment tool to ensure we directed our resources to equitable, well-targeted policies as much as possible. We also prioritized bills brought directly to us by our partners and members. We supported 34 bills, of which 29 passed, and opposed and/or sought to amend 3 bills, of which 2 had the desired outcome.

Below, we summarize legislation that addresses health care access and affordability, financing reform, industry abuses and consumer protections, social determinants of health, and workforce and delivery. The concerted efforts of CCHI staff, members, and individual Coloradans throughout the session paid off with numerous wins for consumers to celebrate as well as disappointing losses that will set the stage for future work in 2026.

LEGISLATIVE SESSION BY THE NUMBERS

CCHI took positions on **37** bills

29 of the **37** bills had our desired outcome

CCHI staff testified at the Capitol **24** times

CCHI held **5** events over the course of session

CCHI staff provided **14** state regulatory comments

CCHI took **19** Protect Our Care Colorado federal advocacy actions

Over **24** media mentions during session in state and national publications

ACCESS AND COVERAGE

While the Affordable Care Act has helped many Coloradans obtain health insurance, we know there are persistent systemic issues that hinder access to health services and cause Coloradans to avoid needed care. Patients should be able to access whole-person, culturally fluent care in their communities in a timely fashion without worrying about what it will cost. In Colorado, we continue to witness health disparities for Latinx, Black, unhoused, and rural communities in part due to these coverage gaps. Under the current federal climate of uncertainty and threats to longstanding health care rights, CCHI focused on policies that strengthened state safeguards and preserved access to existing health care coverage for Coloradans.

SB25 129 Legally Protected Health-Care Activity Protections

Sen. Cutter & Sen. Winter | Rep. Joseph & Rep. McCormick

Pro-consumer vote YES | Status Passed

Reproductive health care, especially abortion services, continue to face increasing threats across our country. This bill builds on previous legislation to strengthen protections for Colorado providers, patients, and helpers against legal action for providing a legally-protected health care service. It also includes important data privacy steps to limit retaliatory action.

SB25 130 Providing Emergency Medical Services

Sen. Gonzales & Sen. Weissman | Rep. Froelick & Rep. Zokaie

Pro-consumer vote YES | Status Passed

A 40-year-old federal law that requires hospitals to provide emergency treatment is currently under attack. In response, Colorado advocates and legislators presented this bill to ensure relevant health care facilities must provide appropriate care in medical emergencies - including abortion care. Despite strong industry push back, an amended version of this bill was able to pass through the legislature and will stand as an important protection in Colorado as court cases are decided at the federal level.

HB25 1002 Medical Necessity Determination Insurance Coverage

Rep. Brown & Rep. Gilchrist | Sen. Amabile & Sen. Pelton

Pro-consumer vote YES | Status Passed

Despite mental health parity policies, many Coloradans have experienced insurance denials for mental health care due to lax policies on insurers' determinations of medical necessity. This bill will strengthen existing measures by requiring insurers to provide coverage for all medically necessary mental health care as referenced under this statute.

KEY BILLS >>>

Protecting Cover All Coloradans From Budget Cuts

Pro-consumer vote YES | Status Passed

In 2022, CCHI helped pass HB22-1289 which establishes Medicaid coverage for undocumented kids and pregnant adults. Known as Cover All Coloradans, this program was implemented on January 1, 2025. Due to the enormous budget shortfall, the Joint Budget Committee did consider proposals to limit coverage, cap spots, or end this new program. Thankfully, legislators chose to prioritize coverage, protect kids, and keep this program funded.

HB25 1309 Protect Access to Gender-Affirming Health Care

Rep. Brown & Rep. Titone | Sen. Cutter & Sen. Gonzales
Pro-consumer vote YES | Status Passed

In response to threats at the federal level, this bill enshrines existing protections in essential health benefits and requires private health insurance plans in Colorado to cover gender-affirming care. Due to concerns about the cost of implementation, gifts, grants, and donations will likely be leveraged until the Health Insurance Affordability Enterprise resolves its funding issues.

FINANCING REFORM

Our profit-driven health care system is unaffordable, unsustainable, and inequitable. The U.S. has higher per capita expenditures and worse health outcomes than peer nations, and these systemic failings disproportionately weigh on consumers who face the biggest barriers to health care. Our Consumer Assistance Program frequently catches mistakes in medical billing statements and bureaucratic processes that are often inaccessible to consumers. Coloradans frequently lack comprehensive infrastructure, including access to behavioral health services, substance use treatment, and oral healthcare. Statewide, cost barriers limit access to care. CCHI reviewed and supported legislative efforts that incentivized the health care system to provide equitable access to quality care.

KEY BILLS>>>

SB25 183 Coverage for Pregnancy-Related Services

Sen. Rodriguez & Sen. Daugherty | Rep. García & Rep. McCluskie

Pro-consumer vote **YES** | Status **Passed**

In November, voters repealed the state funding ban on abortion and added a constitutional amendment recognizing the right to an abortion. This bill makes the necessary statutory changes to implement the will of the voters. This includes adding abortion coverage to state funded health plans.

HB25 1297 Health Insurance Affordability Enterprise Update

Rep. Brown & Rep. Gilchrist | Sen. Jodeh

Pro-consumer vote **YES** | Status **Failed**

The Health Insurance Affordability Enterprise funds programs like reinsurance and Omni-Salud that help make health coverage more affordable and accessible in Colorado for those who need it most. This bill aimed to address existing funding gaps and threats from the federal level to marketplace subsidies. The failure of this bill to pass threatens the stability of the enterprise and the essential programs it oversees. Further work is needed to ensure Coloradans do not lose access to care as a result of this bill's failure.

SB25 045 Health-Care Payment System Analysis

Sen. Marchman | Rep. McCormick & Rep. Boesenecker

Pro-consumer vote **YES** | Status **Passed**

As health care costs become more unmanageable for Coloradans, policy experts continue to look for ways to create more affordable and comprehensive care. Following 3 years of attempts, this bill will finally create a study to analyze a publicly-funded and privately-delivered universal health care payment system.

HJR25 1023 Require General Assembly TABOR Constitutionality Lawsuit

Rep. Camacho & Rep. García | Sen. Daugherty & Sen. Jodeh

Pro-consumer vote **YES** | Status **Failed**

Rather than a bill, this was a House Joint Resolution that moved the legislature to sue the state of Colorado on the grounds that TABOR (the Taxpayer Bill of Rights) artificially constrains the Colorado state budget to such a degree that the state general assembly cannot act out the will of voters. While this resolution failed, it was an important step in recognizing that Colorado's ongoing budget crisis is directly linked to TABOR.

SB25 290 Stabilization Payments for Safety Net Providers

Sen. Mullica & Sen. Kirkmeyer | Rep. Bird & Rep. Brown

Pro-consumer vote **YES** | Status **Passed**

While affordability of care remains a top concern for consumers across the state, many safety net providers are also operating on negative margins. This bill takes steps to direct short-term funding to these providers based on the number of low-income and uninsured consumers they treat to prevent closures.

INDUSTRY ABUSES AND CONSUMER PROTECTIONS

Through our members, Consumer Assistance Program, and Community Advisory Board, CCHI learns directly from consumers about their health care challenges. The health care system is complex, making it difficult for consumers to access coverage and care. The consolidated market emboldens health systems and hospitals to push increasingly high costs onto consumers, which contributes to the harmful cycle of financial toxicity. In 2025, CCHI engaged on the following legislative priorities to address ongoing problems in the areas of provider billing, consolidation, and protective guardrails in the insurance space.

SB25 157 Deceptive Trade Practice Significant Impact Standard
Sen. Weissman & Sen. Gonzales | Rep. Mabrey & Rep. Titone
Pro-consumer vote YES | Status Failed

Strong accountability mechanisms are essential for proper policy implementation. This bill would have lowered the threshold for proving that a deceptive trade practice constitutes a significant impact to the public. This change would have strengthened the Attorney General's ability to enforce existing consumer protection legislation.

SB25 198 Transparency Transactions Medical Care Entities
Sen. Kipp & Sen. Weissman | Rep. Brown
Pro-consumer vote YES | Status Failed

Consolidation in health care has been linked with higher costs for consumers and can lead to fewer options for care. This bill would have expanded the Attorney General's authority to review mergers, acquisitions, and contract affiliations of health care companies. Due to pressure from the hospital association and private equity-backed provider groups, sponsors decided to table the bill and bring it back next year.

HB25 1151 Arbitration of Health Insurance Claims
Rep. Hartsook & Rep. Stewart | Sen. Roberts
Pro-consumer vote NO | Status Failed

As consolidation plays an increasing role in the health care space, technical loopholes in legislation are being leveraged to prioritize profits over patient care. This bill would have undermined a critical part of the negotiations behind existing Colorado protections and incorporated arbitration parameters from the federal No Surprises Act that most benefit large, private-equity-backed providers and are driving up the cost of care for patients. Due to our efforts and opposition from the carriers, this bill died in the Senate.

KEY BILLS>>>

HHB25 1088 Costs for Ground Ambulance Services
Rep. McCormick & Rep. Brown | Sen. Baisley & Sen. Mullica
Pro-consumer vote YES | Status Vetoed

Existing federal and state legislation protects Coloradans from surprise bills in most instances, except for bills from ground ambulances. HB25- 1088 would have extended necessary protections by prohibiting public ambulances from sending surprise bills and expanding protections for non emergency transport. Despite a unanimous passage through the legislature, this bill was vetoed by Governor Polis after the end of session.

HB25 1174 Reimbursement Requirements for Health Insurers
Rep. Brown & Rep. Sirota | Sen. Bridges & Sen. Jodeh
Pro-consumer vote YES | Status Failed

This bill was a creative solution to solve for consumer affordability concerns, safety net provider funding, and high urban hospital margins. HB 1174 would have set a reasonable ceiling on state employee health plan reimbursements to select large urban hospitals then channeled the resulting savings to safety net providers and consumer cost savings. Due to pressure from the hospitals on moderate Democrats and uncertainty about federal budget cuts, the sponsors decided to table the bill this session.

SOCIAL DETERMINANTS OF HEALTH

Addressing the conditions in which we live, work, and play is foundational in achieving racially just, healthy, and equitable communities. The rising cost of living exacerbates pre-existing structural barriers to accessing and achieving health for many Coloradans. CCHI reviewed legislative proposals that improve access to care and coverage through policies that promote food security, keep Coloradans in community and out of institutions, improve language justice, and protect those Coloradans that face the greatest barriers to care.

HB25 1017 Community Integration Plan Individuals with Disabilities **Rep. Clifford & Rep. Froelich | Sen. Michaelson Jenet & Sen. Amabile** **Pro-consumer vote YES | Status Passed**

Health extends beyond access to quality, affordable care. This bill codifies existing protections from the Supreme Court Olmstead decision in Colorado Statute thereby supporting people with disabilities to live independently in community and out of institutions. Additionally, the state must develop a comprehensive integration plan and review it every three years.

HB25 1274 Healthy School Meals for All Program **Rep. García | Sen. Michaelson Jenet & Sen. Wallace** **Pro-consumer vote YES | Status Passed**

Colorado's Healthy School Meals for All Program takes important steps to address food insecurity by providing free, nutritious school meals in public schools. HB 1274 works with SB25 214 to ensure the full implementation of the program through the end of 2025. Due to ongoing budget constraints and higher-than-expected program costs, this bill refers a 2025 ballot measure that will determine the future of the program in 2026.

HB25 1153 Statewide Government Language Access Assessment **Rep. Velasco & Rep. Joseph | Sen. Jodeh** **Pro-consumer vote YES | Status Passed**

Language is a critical determinant of how Coloradans access public programs and institutions for health care and other needs. This bill directs the Department of Personnel and Office of New Americans to conduct a state government wide language access assessment by December 31, 2026 complete with recommendations for addressing gaps in access.

KEY BILLS>>>

SB25 276 Protect Civil Rights Immigration Status **Sen. Gonzales & Sen. Weissman | Rep. Velasco & Rep. García** **Pro-consumer vote YES | Status Passed**

Immigration rights are under threat at the federal level. SB 276 strengthens protections for immigrants at the state level including addressing data privacy concerns and requiring health facilities to have greater protections and plans for interacting with federal authorities. This bill is incredibly important for ensuring all Coloradans can access health care safely.

HB25 1026 Repeal Copayment for Department of Corrections Inmate Health Care **Rep. Carter & Rep. García | Sen. Jodeh & Sen. Hinrichsen** **Pro-consumer vote YES | Status Vetoed**

Access to quality affordable health care is severely limited within Colorado's carceral system. Consumers have less control over their ability to show up for appointments and a \$5 copay on an average salary of \$0.68/day is exorbitant. This bill would have alleviated some of these barriers to health by eliminating copayments for missed appointments, however it was vetoed by Governor Polis.

WORKFORCE AND DELIVERY

Barriers and cracks in the workforce pipeline are harming patient access to quality care, particularly for Coloradans who are most marginalized. Safe staffing, adequate compensation for all staff, and quality employee health coverage are necessary to create health facilities that have the capacity to provide quality care to consumers. Further, investing in community-grown

workforces will result in workers who are better able to return linguistically and culturally fluent care to their communities. CCHI supported proposals that sought to reduce barriers for health providers and help Coloradans receive needed care from trusted professionals at the right place and right time.

KEY BILLS>>>

SB 166 Health-Care Workplace Violence Incentive Payments
Sen. Mullica | Rep. Feret
Pro-consumer vote **YES** |
Status **Passed**

Workplace violence in health care has received increasing attention since the pandemic. Led by Senator Mullica, this bill sets up a process to design a payment incentive system for hospitals who meet workplace violence prevention metrics and explore legislative avenues to address this issue. CCHI will participate in the implementation of this bill to ensure consumer voices are brought to the forefront.

SB25 083 Limitations on Restrictive Employment Agreements
Sen. Daugherty & Sen. Frizell | Rep. Brown & Rep. Garcia Sander
Pro-consumer vote **YES** |
Status **Passed**

Noncompete agreements unduly restrict provider movement and autonomy resulting in diminished access to care for patients. This problem is particularly acute in rural and underserved areas where health care access is already limited. This bill allows providers to move freely between jobs, advocate for better work environments, and ultimately improve continuity of care.

SB25 042 Behavioral Health Crisis Response Recommendations
Sen. Cutter & Sen. Amabile | Rep. Bradfield & Rep. English
Pro-consumer vote **YES** |
Status **Passed**

During our 2024 listening tour series, we consistently heard that Coloradans do not have adequate access to mental health care. Too often, those struggling with mental health end up in our carceral system instead of receiving medical services. This bill establishes a stakeholder group responsible for compiling best practices for responding to a behavioral health crisis as well as identifying gaps in continuity of care post response.

HB 1328 Implement Recommendations Direct Care Worker Stabilization Board
Rep. Duran & Rep. Sirota | Sen. Danielson & Sen. Bridges
Pro-consumer vote **YES** |
Status **Passed**

Direct care workers are a critical, and notoriously undervalued, part of our health care delivery system. This bill implements the recommendations of the Direct Care Worker Stabilization Board including a comprehensive know your rights training and \$17/hour minimum wage starting July 1, 2025.

SCORECARD

BILLS WE SCORED

HB25 1026 **Repeal Copayment** **for Department of** **Corrections Inmate** **Health Care**

This bill would have eliminated copayments for missed appointments which currently create an undue burden for Coloradans in the carceral system.

HB25 1088 **Costs for Ground** **Ambulance** **Services**

This bill would have extend necessary protections by prohibiting public ambulances from sending surprise bills and expanding protections for non-emergency transport.

HB25 1309 **Protect Access to** **Gender-Affirming** **Health Care**

This bill requires private, state-regulated health insurance plans in Colorado to continue covering gender-affirming care services.

SB25 045 **Health-Care** **Payment System** **Analysis**

This bill creates a study to analyze a publicly-funded and privately-delivered universal health care payment system.

SB25 083 **Limitations on** **Restrictive** **Employment** **Agreements**

This bill allows providers to move freely between jobs, advocate for better work environments, and ultimately improve continuity of care.

SB25 183 **Coverage for** **Pregnancy-Related** **Services**

This bill implements Amendment 79 which was passed by the voters and called for the state constitutional right to an abortion and an end to the public funding ban on abortion care.

SB25 276 **Protect Civil Rights** **Immigration Status**

This bill strengthens protections for immigrants in Colorado. Measures include improving data security and protecting access to health facilities.

What is the purpose of this scorecard?

The purpose of this scorecard is to inform CCHI's members, supporters, partners, and the public where our Colorado legislators stand when it comes to health care issues that affect consumers. While many policies are introduced each year to bring about change in our health care system, we want you to know which ones we believe are most important to creating equitable access to affordable high-quality health care for all Coloradans - and how your legislator voted on them. This scorecard is not an endorsement of any legislator or political party.

How did we choose which bills to score?

In 2025, CCHI took a position on over 30 pieces of legislation. Due to the high number of bills related to health and health care, we chose to score bills that best aligned with our long term vision of an affordable, quality, patient-centered health system in Colorado. These bills represent vital protections in the health care space and speak to the underlying climate of both federal uncertainty and budget concerns that we expect to continue to grapple with in the coming years.
