

Anthem Blue Cross Blue Shield

Pathway X with Dental

Product Type: HMO

Accessing Care Outside the service area / State: Out of state only urgent and emergent are allowed. IND Pathway X includes Away from Home Care.

Key Provider Network Features: HMO Colorado's Pathway X is a Highly Aligned Network which is a statewide network, but is aligned with specific hospitals and physicians in the Front Range. The Front Range Counties (Boulder, Denver Metro area, El Paso/Teller, Larimer, Weld, and Pueblo) are aligned with the following with specific hospital systems: Boulder Community Hospital, HCA (Medical Center of Aurora, North Suburban, PSL Denver, Rose Medical Center, Sky Ridge Medical Center, Swedish Medical Center, Spalding Rehab Hospital, and Rocky Mountain Hospital for Children, Craig Hospital, University Hospital, Memorial Hospital System, Pikes Peak Regional Medical Center, Poudre Valley, Medical Center of the Rockies, and Parkveiw Medical Center. All other counties include all hospitals and providers within our statewide HMO Network. This Highly Aligned Network includes behavioral health, autism, and ancillary providers: PT/OT/ST, home infusion, home health, DME, lab through-out the state; unless affiliated with a non-participating facility. The Highly Aligned Network is open access; which means you will still need to choose a PCP, but you do not need a referral from your PCP see any of the Highly Aligned Network providers.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do join or leave our networks from time to time, and these listings do change. There are hospitals, health care facilities, physicians or other health care providers who are not included in every plan network. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees We recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please refer to Anthem.com for a current list of network providers.

That means you have access to your prescriptions wherever you are – at home, work or even on vacation. The network includes most chains, including Albertsons, City Market, Costco, King Soopers, Rite-Aid, Safeway, Sam's Club, Target, Walgreens, and Wal-Mart, in addition to some local, independent pharmacies. To make sure your pharmacy's in our network, visit Anthem.com.

PRIMARY CARE PHYSICIANS

Selecting a Primary Care Physicians:

When selecting a PCP from the Pathway X network, you have several options. You may choose a physician you know, one located close to your home or office, or one that is in the same highly aligned network or medical management group as your specialist provider. We encourage you to get to know your PCP to establish a common understanding of your health care needs and goals. To change your PCP; call Customer Service at the phone number listed on the back of your health plan ID card; or on-line through the member secured access at anthem.com to change your PCP.

Open Practice is 99% Family Medicine; 100% General Practice; 99% Internal Medicine; 100% Pediatric

Primary Care Physicians by Type and Quantity

| | | | |
|--------------------------|------|------------------------------------|-----|
| Family Medicine | 1098 | Pediatrician | 364 |
| General Practice | 8 | Obstetrics & Gynecology | 538 |
| Internal Medicine | 398 | | |

SPECIALTY CARE PHYSICIANS

Accessing care from a Specialty Care Physicians: Your PCP is your first point of contact when care is needed. When you need specialist care, the PCP can recommend an appropriate specialty provider.

With this plan, you are not required to obtain a referral from your PCP to see a physician specialist. If at any time a referral is required for medically necessary treatment to at an in-network provider a standing referral will be accepted. If your referral is approved by us it cannot be retrospectively denied except for fraud or abuse. Once your referral is approved by us it cannot be changed after the preauthorization is provided unless there is evidence of fraud or abuse. However, preauthorization is required for certain services and procedures. In-network providers are responsible for obtaining preauthorization when it is required.

You are generally required to see in-network providers for non-emergency care. Under certain non-emergency circumstances, you may see an out-of-network provider, although preauthorization is required in those cases. You are responsible for confirming that preauthorization is obtained when seeing an out-of-network provider or your service will be denied and you will be responsible for the full cost.

HMO Colorado's comprehensive specialty network includes physician specialists (surgeons, allergists, dermatologists, cardiologists, etc.); other specialists (mental and behavioral health providers, physical therapists, home health agencies, etc.); facilities (acute care hospitals, ambulatory care centers, hospices, etc.); and providers of other specialty care, including rehabilitation services.

Specialist recommendations within a Highly Aligned Network or medical management group

When a member’s PCP is part of a highly aligned network or medical management group and you ask your PCP for a specialist recommendation, the PCP will typically refer you to a specialist within the same highly aligned network or medical management group. If preauthorization is required but not obtained for care received from an out-of-network provider, you will be financially responsible for those services.

Specialist recommendations through independent PCPs

If your PCP is not affiliated with a highly aligned network or medical management group, your PCP will make recommendations to any specialty provider within the network. Whether you seek specialty care on your own or receive a recommendation from your PCP, it is important to stay within the network to receive coverage.

Behavioral health services

Before receiving Inpatient behavioral health and chemical dependency services, you must call for preauthorization the toll-free number which is listed on the back of your health plan ID card. A referral from your PCP is not required. A comprehensive directory that lists providers and facilities in the network is available at anthem.com.or by calling our customer service department at the phone number listed on the back of your health plan ID card.
